OTHER BUSINESS BEFORE THE BOARD

Ms. Jackson brought to the Boards attention information about fraudulent documents that the Division has been receiving from Puerto Rico. She explained that there are multiple pending applications that she was able to verify with PR that the documents sent in had been forged. That the license numbers belonged to names other than the name on the application we received. Ms. Jackson also explained that she has verified with PR over 100 licensees that are currently active, obtained their license through fraudulent documentation with license numbers that belong to someone other than themselves in PR. Ms. Jackson and the Division are working with PR to verify as many of applicants and licensees as possible with fraudulent documents. She also informed the Board that the Division is working with PR to come up with a way to send license verifications electronically to the Division to hopefully put a stop to the fraudulent documents that are received now.
